AIDS TO PROPER MAILING

Write name and address plainly and completely.
Place name and address of sender on all mail matter.
Prepay postage fully.
Use street and number in return address on your envelope and also letter heads.
Always address mail for city delivery to street and number, and request correspondents to do likewise.
Use designation North or South, West or East when it is a proper part of the address and save delay in delivery.
Insure valuable parcels.
Wrap parcel post carefully in heavy paper, and tie knots securely.
Do not use cards or envelopes smaller than a Government Postal Card.
Avoid the use of the word "City" as a part of the address. It may result in delay.
Avoid abbreviation of state names. Pa., Va., and La., frequently look very much alike when written. It is difficult to distinguish between Me., Mo., and Md., or Col. and Cal. The abbreviations recommended for Colorado is Colo. and for California is Calif.
YOU WILL OFTEN GAIN A DAY'S TIME IN DELIVERY BY DEPOSITING MAIL AS SOON AS IT IS READY.
Pamphlets showing the hours "Mail Close" at the post office, and the time in transit between all of the large cities in the United States, may be had upon application to the Superintendent of Mails.

Hop, Skip and Jump

It takes a hop, skip and jump to answer the telephone when you're way at the other end of the apartment. For just a few cents a day, you can have an extension telephone—beside your easy chair, beside your bed—or any place you wish.

You can order yours by just telephoning our Business Office.

Why Waste Energy?

Mrs. Johnson knows the advantages of saving her energy. That's why she has extension telephones. They save her hundreds of steps a day. There's a telephone in the kitchen, one in the living room beside her easy chair, and, of course, one in the bedroom.

No wonder she looks and feels better than the rest of her friends!

Why Naphtha?

. . because cleaning in NAPHTHA preserves original beauty and lustre of Oriental and Domestic rugs.

RUGS are drenched for hours in distilled naphtha. Stains dissolve. Dirt and dust are gently removed by continual rinsing in thousands of gallons of naphtha. Cleans surface, pile and back. Destroys moth eggs. It does not remove the natural oils in rugs. Leaves the threads strong and full of life. Colors are restored to their warmth and beauty.

Also, we DRY STEAM every rug and carpet to raise crushed pile. All domestic rugs and carpets resized to insure against limpness.

A naphtha cleaned rug or carpet retains its life and body.

Personal Contact

Personal contact—with whomever you wish—in any part of the country. The telephone gives you this personal, voice-to-voice contact. It puts speed and convenience in the administration of business. A long distance call frequently saves a railroad trip; it often means a customer satisfied; or a carload of goods sold. Yet it costs so little—even to places far away!

WASTED STEPS

The average wife walks several miles in her daily household duties. Trudging back and forth to answer the telephone—accounts for many hundred needless steps.

How to save them? Simply have an extension telephone within a dozen steps of you at all times—whether you're in the living room, kitchen or bedroom. You'll never feel the cost—it's only a few cents a day for each extension telephone.

NO ONE ELSE HAD A TELEPHONE
you would mail neither a telephone nor telephone directory advertising.
But when thousands of people in this city do much of their buying by telephone and depend upon the Classified Telephone Directory to tell them where to buy, you'll find your sales message before them all the time. It will make your telephone pay dividends. Try it.

Why Waste Energy?

Mrs. Johnson knows the advantages of saving her energy. That's why she has extension telephones. They save her hundreds of steps a day. There's a telephone in the kitchen, one in the living room beside her easy chair, and, of course, one in the bedroom.

No wonder she looks and feels better than the rest of her friends!

Personal Contact

Personal contact—with whomever you wish—in any part of the country. The telephone gives you this personal, voice-to-voice contact. It puts speed and convenience in the administration of business. A long distance call frequently saves a railroad trip; it often means a customer satisfied; or a carload of goods sold. Yet it costs so little—even to places far away!

WASTED STEPS

The average wife walks several miles in her daily household duties. Trudging back and forth to answer the telephone—accounts for many hundred needless steps.

How to save them? Simply have an extension telephone within a dozen steps of you at all times—whether you're in the living room, kitchen or bedroom. You'll never feel the cost—it's only a few cents a day for each extension telephone.

WHAT THE TELETYPEWRITER SERVICE IS, AND HOW IT OPERATES

The teletypewriter looks and operates like an ordinary typewriter. Messages, reports, inquiries, typed in your office are *instantly* and identically reproduced on any other teletypewriter to which it is connected . . . 300 feet or 3,000 miles away.

As a subscriber to this Bell System service, your typist simply calls the desired teletypewriter by typing its number and "central" immediately makes the connection.

TEN OUTSTANDING FEATURES

Availability . . . The same as telephone service. Teletypewriter "central" will connect any subscriber anywhere in the United States at any time to any other subscriber.

Speed . . . . Connections are fast—comparable to the telephone.

Two-Way Service . . . Subscribers can type back and forth on the same connection, making inquiries and replies possible.

Accuracy . . . The copy received is identical with that transmitted . . . Ambiguities in text can be clarified during the connection.

Simplicity . . . Any competent typist can operate it.

Privacy . . . Communication is direct between sender and receiver.

Flexibility . . . Letter sized paper or your own forms for orders, reports, deliveries, and similar matters can be used . . . As many as six copies can be made by each teletypewriter.

Permanent Records . . . Each subscriber has typewritten copy.

Low Cost . . . A most economical form of written communication.

Dependability . A Bell System service.

COMFORT

When you install extension telephones you add more comfort and convenience to your home. Always within reach, they save countless footsteps and the annoyance of running from one end of the apartment to the other every time the telephone rings. Your home deserves this added up-to-dateness, especially since it costs so little.

Our nearest Business Office will be glad to suggest convenient telephone arrangements for your home.
